What type of toothbrush do you use?		□ Yes □ No
Would you like to Demo an Oral-B power toothbrush today?		□ Yes □ No
Is there anything you would like to change about your smile?		
If yes, please explain:		

As a condition of your treatment by this office, financial arrangements must be made in advance. The practice depends upon reimbursement from our patients for the costs incurred in their care to remain viable. Therefore, financial responsibility on the part of each patient must be determined before treatment.

All emergency dental services, or any dental services performed without previous financial arrangements, must be paid for in full at the time services are rendered.

Patients who carry dental insurance understand that all dental services furnished are charged directly to the patient and that he or she is personally responsible for payment of all dental services. Our office staff will prepare and send the insurance forms for our patients and or assist in making collections from insurance companies and will credit any such collections received to the patient's account. However, our dental office cannot render services on the assumption that our charges will be paid in full by an insurance company.

A monthly service charge at a fixed rate of 18% per month of the unpaid balance as of the last day of each month will be assessed and added to the balance on all accounts exceeding sixty (60) days from the date of service unless previously written financial arrangements are made. I understand that the fee estimate listed for this dental care can only be extended for a period of six (6) months from the date of the patient examination.

In consideration for the professional services to be rendered to me, (or at my request, to my minor child or ward) by the dentist, I agree to pay the fees charged for the dental services provided by the dentist or licensed employee at the time the services are rendered, or within five (5) days of billing if credit shall be extended by the dentist. In the event my account becomes delinquent, I agree to pay the remaining balance plus the sum of the collection commission; an additional 50%; charged by the collection agency to whom a delinquent account is turned for collection, in addition to reasonable attorney fees and court costs where such legal services are necessary. I authorize the release of financially identifiable information concerning my account, including charges billed, payments made, and interest charges assessed, etc. to the dentist's collection agency or attorney should collection procedures as described become necessary.

I grant my permission to you or your assignee to telephone me at home or at my workplace to discuss matters related to this form. I also agree to let this office leave messages concerning appointments and/or results on my answering machine or with a family member. Furthermore, I agree to give 24 hours notice if an appointment must be changed or cancelled. If I fail to give proper notice for myself or minor child, I agree to pay a \$30.00 per hour cancellation fee; that is prorated according to the appointment length.

This agreement supersedes all prior agreements signed, including any and all mediation or mediation/arbitration agreements. I acknowledge that any prior mediation or mediation/arbitration agreements signed previously related to financial arrangements or quality of care are null and void.

I authorize the dentist or his designees to release financially identifiable information and treatment descriptions and information, either electronically, by facsimile or in paper form to my insurance carrier or any related entities that require such information to be submitted.

I acknowledge that I have received a copy of this office's Privacy Policies. I agree to disclose to the dentist names of any individuals with whom I authorize the dentist to discuss my dental care. I hereby agree to abide by the conditions outlined herein.

Date:_____ Relationship to Patient:_____

I authorize Dr. Brigham G. Colton, DMD and/or such associates or assistants as he may designate to perform those procedures as may be deemed necessary or advisable to maintain my dental health or the dental health of any minor or other individual for which I have responsibility, including arrangement and/or administration of any sedative (including nitrous oxide), analgesic, therapeutic, and/or other pharmaceutical agent(s), including those related to restorative, palliative, therapeutic or surgical treatments.

I understand that the administration of local anesthetic may cause an untoward reaction of side effects, which may include, but are not limited to bruising; hematoma; cardiac stimulation; muscle soreness; and temporary or rarely, permanent numbness. I understand that occasionally needles break and may require surgical retrieval. Occasionally drops of local anesthetic may contact the eyes and facial tissues and cause temporary irritation.

I understand that as part of dental treatment, including preventative procedures such as cleanings and basic dentistry including fillings of all types, teeth may remain sensitive or even possibly quite painful both during and after completion of treatment. Dental materials and medications may trigger allergic or sensitivity reactions.

After lengthy appointments, jaw muscles may also be sore or tender. Holding one's mouth open can, in a predisposed patient, precipitate a TMJ disorder. Gums and surrounding tissues may also be sensitive or painful during and/or after treatment. Although rare, it is also possible for the tongue, cheek or other oral tissues to be inadvertently abraded or lacerated (cut) during routine dental procedures. In some cases sutures or additional treatment may be required.

I understand that as part of dental treatment items including, but not limited to crowns, small dental instruments, drill components, etc. may be aspirated (inhaled into the respiratory system) or swallowed. This unusual situation may require a series of x-rays to be taken by a physician or hospital and may, in rare cases, require bronchoscopy or other procedures to ensure safe removal.

I understand the need to disclose to the dentist any prescription drugs that are currently being taken or that have been taken in the past, such as Phen-Fen. I understand that taking the class of drugs prescribed for the prevention of osteoporosis, such as Fosamax, Boniva, or Actonel, may result in complications of non-healing of the jawbones following oral surgery or tooth extractions.

I understand that as part of dental treatment, including preventative procedures such as cleanings and basic dentistry including fillings of all types, teeth may remain sensitive or even possibly quite painful both during and after completion of treatment. Dental materials and medications may trigger allergic or sensitivity reactions.

After lengthy appointments, jaw muscles may also be sore or tender. Holding one's mouth open can, in a predisposed patient, precipitate a TMJ disorder. Gums and surrounding tissues may also be sensitive or painful during and/or after treatment. Although rare, it is also possible for the tongue, cheek or other oral tissues to be inadvertently abraded or lacerated (cut) during routine dental procedures. In some cases sutures or additional treatment may be required.

I understand that as part of dental treatment items including, but not limited to crowns, small dental instruments, drill components, etc. may be aspirated (inhaled into the respiratory system) or swallowed. This unusual situation may require a series of x-rays to be taken by a physician or hospital and may, in rare cases, require bronchoscopy or other procedures to ensure safe removal.

I understand the need to disclose to the dentist any prescription drugs that are currently being taken or that have been taken in the past, such as Phen-Fen. I understand that taking the class of drugs prescribed for the prevention of osteoporosis, such as Fosamax, Boniva, or Actonel, may result in complications of non-healing of the jawbones following oral surgery or tooth extractions.

Would you like to Demo an Oral-B power toothbrush today?		□ Yes □ No
Is there anything you would like to change about your smile?		
If yes, please explain:		

As a condition of your treatment by this office, financial arrangements must be made in advance. The practice depends upon reimbursement from our patients for the costs incurred in their care to remain viable. Therefore, financial responsibility on the part of each patient must be determined before treatment.

All emergency dental services, or any dental services performed without previous financial arrangements, must be paid for in full at the time services are rendered.

Patients who carry dental insurance understand that all dental services furnished are charged directly to the patient and that he or she is personally responsible for payment of all dental services. Our office staff will prepare and send the insurance forms for our patients and or assist in making collections from insurance companies and will credit any such collections received to the patient's account. However, our dental office cannot render services on the assumption that our charges will be paid in full by an insurance company.

A monthly service charge at a fixed rate of 18% per month of the unpaid balance as of the last day of each month will be assessed and added to the balance on all accounts exceeding sixty (60) days from the date of service unless previously written financial arrangements are made. I understand that the fee estimate listed for this dental care can only be extended for a period of six (6) months from the date of the patient examination.

In consideration for the professional services to be rendered to me, (or at my request, to my minor child or ward) by the dentist, I agree to pay the fees charged for the dental services provided by the dentist or licensed employee at the time the services are rendered, or within five (5) days of billing if credit shall be extended by the dentist. In the event my account becomes delinquent, I agree to pay the remaining balance plus the sum of the collection commission; an additional 50%; charged by the collection agency to whom a delinquent account is turned for collection, in addition to reasonable attorney fees and court costs where such legal services are necessary. I authorize the release of financially identifiable information concerning my account, including charges billed, payments made, and interest charges assessed, etc. to the dentist's collection agency or attorney should collection procedures as described become necessary.

I grant my permission to you or your assignee to telephone me at home or at my workplace to discuss matters related to this form. I also agree to let this office leave messages concerning appointments and/or results on my answering machine or with a family member. Furthermore, I agree to give 24 hours notice if an appointment must be changed or cancelled. If I fail to give proper notice for myself or minor child, I agree to pay a \$30.00 per hour cancellation fee; that is prorated according to the appointment length.

This agreement supersedes all prior agreements signed, including any and all mediation or mediation/arbitration agreements. I acknowledge that any prior mediation or mediation/arbitration agreements signed previously related to financial arrangements or quality of care are null and void.

I authorize the dentist or his designees to release financially identifiable information and treatment descriptions and information, either electronically, by facsimile or in paper form to my insurance carrier or any related entities that require such information to be submitted.

I acknowledge that I have received a copy of this office's Privacy Policies. I agree to disclose to the dentist names of any individuals with whom I authorize the dentist to discuss my dental care. I hereby agree to abide by the conditions outlined herein.

Date:_____ Relationship to Patient:_____

I authorize Dr. Brigham G. Colton, DMD and/or such associates or assistants as he may designate to perform those procedures as may be deemed necessary or advisable to maintain my dental health or the dental health of any minor or other individual for which I have responsibility, including arrangement and/or administration of any sedative (including nitrous oxide), analgesic, therapeutic, and/or other pharmaceutical agent(s), including those related to restorative, palliative, therapeutic or surgical treatments.

I understand that the administration of local anesthetic may cause an untoward reaction of side effects, which may include, but are not limited to bruising; hematoma; cardiac stimulation; muscle soreness; and temporary or rarely, permanent numbness. I understand that occasionally needles break and may require surgical retrieval. Occasionally drops of local anesthetic may contact the eyes and facial tissues and cause temporary irritation.

I understand that as part of dental treatment, including preventative procedures such as cleanings and basic dentistry including fillings of all types, teeth may remain sensitive or even possibly quite painful both during and after completion of treatment. Dental materials and medications may trigger allergic or sensitivity reactions.

After lengthy appointments, jaw muscles may also be sore or tender. Holding one's mouth open can, in a predisposed patient, precipitate a TMJ disorder. Gums and surrounding tissues may also be sensitive or painful during and/or after treatment. Although rare, it is also possible for the tongue, cheek or other oral tissues to be inadvertently abraded or lacerated (cut) during routine dental procedures. In some cases sutures or additional treatment may be required.

I understand that as part of dental treatment items including, but not limited to crowns, small dental instruments, drill components, etc. may be aspirated (inhaled into the respiratory system) or swallowed. This unusual situation may require a series of x-rays to be taken by a physician or hospital and may, in rare cases, require bronchoscopy or other procedures to ensure safe removal.

Furthermore, I agree to give 24 hours notice if an appointment must be changed or cancelled. If I fail to give proper notice for myself or minor child, I agree to pay a \$30.00 per hour cancellation fee; that is prorated according to the appointment length.

This agreement supersedes all prior agreements signed, including any and all mediation or mediation/arbitration agreements. I acknowledge that any prior mediation or mediation/arbitration agreements signed previously related to financial arrangements or quality of care are null and void.

I authorize the dentist or his designees to release financially identifiable information and treatment descriptions and information, either electronically, by facsimile or in paper form to my insurance carrier or any related entities that require such information to be submitted.

I acknowledge that I have received a copy of this office's Privacy Policies. I agree to disclose to the dentist names of any individuals with whom I authorize the dentist to discuss my dental care. I hereby agree to abide by the conditions outlined herein.

Date:_____ Relationship to Patient:_____

I authorize Dr. Brigham G. Colton, DMD and/or such associates or assistants as he may designate to perform those procedures as may be deemed necessary or advisable to maintain my dental health or the dental health of any minor or other individual for which I have responsibility, including arrangement and/or administration of any sedative (including nitrous oxide), analgesic, therapeutic, and/or other pharmaceutical agent(s), including those related to restorative, palliative, therapeutic or surgical treatments.

I understand that the administration of local anesthetic may cause an untoward reaction of side effects, which may include, but are not limited to bruising; hematoma; cardiac stimulation; muscle soreness; and temporary or rarely, permanent numbness. I understand that occasionally needles break and may require surgical retrieval. Occasionally drops of local anesthetic may contact the eyes and facial tissues and cause temporary irritation.

I understand that as part of dental treatment, including preventative procedures such as cleanings and basic dentistry including fillings of all types, teeth may remain sensitive or even possibly quite painful both during and after completion of treatment. Dental materials and medications may trigger allergic or sensitivity reactions.

After lengthy appointments, jaw muscles may also be sore or tender. Holding one's mouth open can, in a predisposed patient, precipitate a TMJ disorder. Gums and surrounding tissues may also be sensitive or painful during and/or after treatment. Although rare, it is also possible for the tongue, cheek or other oral tissues to be inadvertently abraded or lacerated (cut) during routine dental procedures. In some cases sutures or additional treatment may be required.

I understand that as part of dental treatment items including, but not limited to crowns, small dental instruments, drill components, etc. may be aspirated (inhaled into the respiratory system) or swallowed. This unusual situation may require a series of x-rays to be taken by a physician or hospital and may, in rare cases, require bronchoscopy or other procedures to ensure safe removal.

I understand the need to disclose to the dentist any prescription drugs that are currently being taken or that have been taken in the past, such as Phen-Fen. I understand that taking the class of drugs prescribed for the prevention of osteoporosis, such as Fosamax, Boniva, or Actonel, may result in complications of non-healing of the jawbones following oral surgery or tooth extractions.
